

DELOS ANGELES, JOHN ROMMEL

BSIT SD-3D

1. In your most recent project, what particular contributions did you make to the project's success?

Our recent project is during the first semester of third year, our instructor Mr. Elmar assigned us to develop a system before the semester ends. HOTEL MANAGEMENT SYSTEM.

2. Describe and rate yourself (1 being the lowest and 10 as the highest) as a team member.

I would rate myself a 10. I'm responsible, cooperative, and I make sure to contribute ideas and complete my tasks on time. I also help my teammates when needed and make sure na aligned kami sa goals ng project.

3. What do you consider to be your current group's best quality?

Our group's best quality is our cooperation and teamwork. Marunong kami makinig sa isa't isa, we are patient, and we understand our individual roles. Because of this, nagiging smooth yung workflow namin and we avoid conflicts as much as possible.

4. List down the risks your group will face on your current project. What plans do you have to solve them?

Our group may face several risks while working on the project such as miscommunication, time constraints, technical issues, and unequal distribution of tasks. First miscommunication, this can lead to confusion and delays, so we plan to maintain clear and regular communication through meetings and updates. In time constraints, possible na mahirapan kami matapos on time, so gagawa kami ng proper timeline and ia-assign namin nang maayos yung tasks. May chance din na magkaroon ng technical issues like bugs or system errors, kaya magco-conduct kami ng regular testing and we're gonna help each other for debugging. Lastly, to avoid unequal workload, hahatiin namin nang fair yung tasks based sa skills of each member at imo-monitor namin ang progress para maging balanced at productive ang team.
